

Testimonials

Extensive experience with The Genesis Device Automatic Bromine Generator has proven it to be a **technically sound and very reliable system**. The level of commitment and on-going support provided by the people at Pioneer H2O is truly outstanding and has been instrumental to the successful implementation of this product.

Marc Lambert

I installed the Genesis two months ago to **eliminate the day to day hassle of adding chemicals**. True to the advertising, both sanitizer and ph are nearly maintenance free so far. As my tub is large, I hope I'll save money by extending the time between fills and expensive re-heats. No doubt with both the cost of chemicals and energy increasing, the Genesis payback will be sooner than I expected.

Stuart Black
Consumer

The best decision we made this year was to feature the Genesis Device Automatic Bromine Generator from Pioneer H2O Technologies on our hot tubs. The **water clarity, silky feel, softer skin, and simpler water management** are important features and benefits of using this system.

This is a rock solid product, thank you !

I've had my Genesis Bromine Generator for over a year now; and I **love the way my spa feels**, and the ease of maintenance is especially nice. I would recommend the Genesis to every spa owner. The salt makes the water softer, my skin is softer, and I'm not draining my spa as much.

The Simplicity of GENESIS

The Genesis Device Automatic Bromine Generator is the smartest, easiest and most cost effective way to keep your spa sparkling and always inviting.

Hot tubs and spas maintained by the Genesis Device are virtually maintenance free and greatly reduce cost and aggravation by eliminating the purchasing, storing and handling of Bromine tablets. This technology, while taking years to develop, is easy to understand, simple to use and amazingly effective.

Automating your hot tub or spa is easy:

- First, you add Tru Blu – Sodium Bromide to your hot tub or spa water. You only have to do this once, during the initial start-up process.
**Sodium Bromide – “NaBr” is the kissing cousin of Sodium Chloride “NaCl” (table salt)*
- The dissolved Sodium Bromide then circulates through your spa and makes contact with the Genesis Device. The Genesis then electronically converts Sodium Bromide into Bromine.
**Bromine is the recommended sanitizer for hot tubs and spas*
- The Bromine sanitizes the spa’s water then reverts back to Sodium Bromide, completing the perpetual cycle.

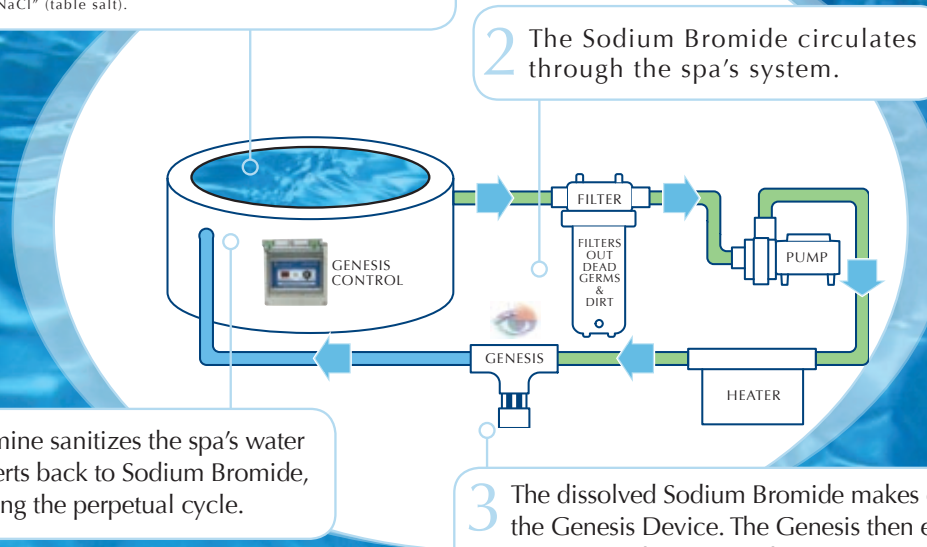

The Genesis Device means that the days of buying tablets and filling those unsightly floating feeders are gone forever! No more hassle...just sparkling clean water!

1 First, you add Tru-Blu Sodium Bromide* to your hot tub or spa’s water. You only have to do this once, during the initial start-up process.

*Sodium Bromide – “NaBr” is the kissing cousin of Sodium Chloride “NaCl” (table salt).

2 The Sodium Bromide circulates through the spa’s system.

4 The Bromine sanitizes the spa’s water then reverts back to Sodium Bromide, completing the perpetual cycle.

3 The dissolved Sodium Bromide makes contact with the Genesis Device. The Genesis then electronically converts Sodium Bromide into Bromine.*

*Bromine is the recommended sanitizer for hot tubs and spas.

The Genesis Device Products

Tru-Blu

Tru-Blu is 98.9% pure Sodium Bromide. The Genesis Device electronically converts Sodium Bromide into Bromine, the recommended sanitizer for hot tubs and spas.

Test Strips

The industry standard method of testing the level of Sodium Bromide in your spa water.

Pre-Filters

Using a pre-filter removes any unwanted organic material from your spa water.

- NEVER BUY BROMINE AGAIN
- NO MORE CLOUDY WATER
- NO MORE OZONE ODOR
- NO MORE QUARTERLY DRAINING
- NO MORE SCUM LINES
- NO MORE FLOATING FEEDERS
- NO MORE DRY SKIN
